10.4 Школски круг / Traffic Pattern 12

SPORT AIRFIELD SKOPJE - STENKOVEC LWSN RWY 12 TRAFFIC PATTERN CHART	Elevation: 318 m / 1043 ft ARP. N42° 03' 36,36" E21° 23' 06,77" (WGS 84)
Freq. 123.500 MHz Skopje APP: 120.300 MHz Skopje TWR: 118.500 MHz	N. Macedonia Skopje - Stenkovec LWSN
E Class Airspace GND – 1000 ft D Class Airspace 1000 ft – UNL	

OBSTACLES NEAR AIRPORT

1100 meters from the runway threshold there is an overhead power line corridor. On the northern side, there are two overhead power lines along the runway. The first one is 150 meters from the runway, and the second one is 250-300 meters from the runway. The highest point of both powerlines is 15 m (45 ft).

Traffic pattern for certified aircraft is 300 m (1000 ft) QFE.

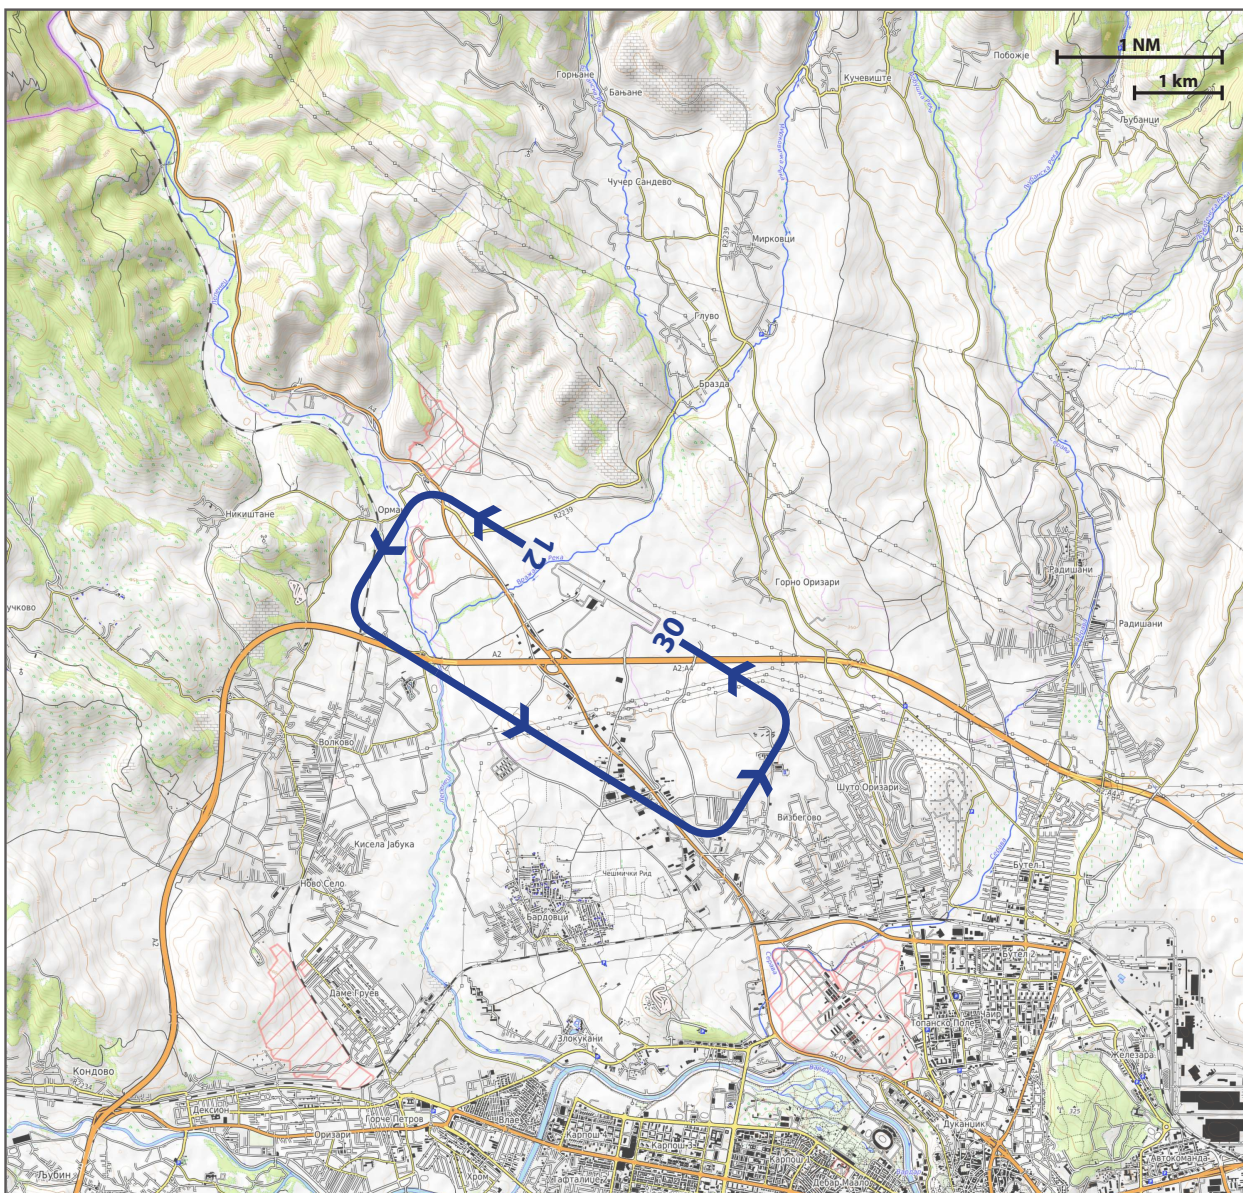

Traffic pattern for ultralight aircraft is 200 m (656 ft) QFE.

Departure procedures (RWY 12):

After departure maintain runway heading. Upon passing 150 m QFE turn right.
